Re: Trimaco, LLC

Dear Mr. Turung:

Thank you for your letters dated July 22, 2016 and August 11, 2016. We have reviewed U.S. Patent No. 9,365,385, which was identified in your letter, and have concluded that Trimaco does not perform the methods claimed in the '385 patent. Furthermore, Trimaco does not currently produce a floor protection product that includes two parallel grooves.

Trimaco prides itself on its ability to innovate. As an innovator and competitor in the marketplace, Trimaco respects the intellectual property held by others. We do not see any conflict between the claims of the '385 patent and Trimaco's business.

Please do not hesitate to contact us if you believe that we have overlooked some pertinent matter.

Sincerely,

BARNES & THORNBURG^{LLP}

Jeffrey T.G. Kelsey
